## Whole Person Care Continuum

<table>
<thead>
<tr>
<th>Episodic Care</th>
<th>Coordinated Care</th>
<th>Whole Person Care</th>
</tr>
</thead>
<tbody>
<tr>
<td>- Immediate needs focus</td>
<td>- Some shared cost &amp; quality data</td>
<td>- Fully realized individual and population health strategies</td>
</tr>
<tr>
<td>- Limited or no integrated care networks</td>
<td>- Addressing immediate needs along with a prevention focus</td>
<td>- Shared definitions of success for social and health care</td>
</tr>
<tr>
<td>- Basic information &amp; referral process</td>
<td>- Person-centered care models</td>
<td>- Fully integrated networks capable of addressing whole person needs</td>
</tr>
<tr>
<td>- Limited or no cross-sector collaboration</td>
<td>- Some but limited functionally integrated information technology</td>
<td>- Learning organization/network capable of quick adoption of best practices &amp; adjustments</td>
</tr>
<tr>
<td>- No shared risk or resource allocations/budgets</td>
<td>- Limited scope cross-sector collaboration</td>
<td>- Functionally integrated E-health technology and telemedicine options</td>
</tr>
<tr>
<td>- Health care and social care significantly separated</td>
<td>- Integrated care teams</td>
<td>- Shared budgeting &amp; revenue forecasting</td>
</tr>
<tr>
<td>- DEI Awareness</td>
<td>- DEI Plans Implemented</td>
<td>- Continuous DEI work</td>
</tr>

Whole Person Care: Investing in Health

We see whole person care as a paradigm shift to reflect what matters most to people and how they want to interact with the health care system.

- Represents seamless connections of key determinants of health: Physical, Emotional, Social, Economic, Spiritual, Behavioral

- Approach recognizes all factors are connected and impact health, requiring a “whole-person” approach to care

- Its success depends on the ability to create new relationships. Relationships are what help create value for people interacting with the health care system. Relationships help support people and their goals.
Whole Person Care Strategy

1. Engage & reflect the community
2. Build collective will & common understanding
3. Develop standard but flexible framework
4. Data & Impact to inform decision-making
5. Scale & adjustments

Eliminate disparities
Personalized experience
Economically sustainable
